SNOWLINK PL02
WINTER UHP

 **TRIANGLE**
Tires for Life

SNOWLINK PL02

- Low rolling noise, excellent comfort performance, outstanding high speed performance.
- Excellent grip performance on ice-snow roads.
- Excellent traction performance, shorten braking distance on ice-snow.
- Excellent handling and mobility performance.

Left-right asymmetrical design

- Improved handling and mobility performance on ice and snow

Three Zigzag groove design

- Improved mobility and drainage performance on bad road conditions

Constructed with fine and closed 3D blade grooves

- Improved grip performance on mud and ice-snow conditions

Structure Design

- Wider tread with less height and larger footprint to increase the tire contact area
- Enhanced tire low traction performance, improved mileage
