Grip X MT TR281

SUMMER 4X4 MT

 **TRIANGLE**
Tires for Life

GripXMT TR281

- The **GripXMT** Mud Terrain tire is focused on the off road enthusiasts and for those consumers who value an aggressive design to match their vehicles and personality.
- Superior toughness and traction to manage extreme off road with balanced on-road performance.

Aggressive block design with large shoulder grooves

- For extreme off road grip
- Resulting in superior off-road performance

Strategically placed stone ejectors

- For release of trapped stones and mud
- Resulting in high traction and preventing damage

Stair step block face design

- For aggressive gripping and climbing capability
- Resulting in greater bite for off-road traction in sandy and muddy conditions

Reinforced high strength carcass structure design

- For enhanced climbing ability and steering stability on road and off-road
- Resulting in effective prevention of damage

New advanced tread compound featuring functional polymers in combination with natural rubber

- For increased tread durability, self cleaning and high carrying capacity
- Resulting in improved resistance to tearing and punching and excellent grip in rocky conditions

High sidewall turn-up

- For improved sidewall strength
- Resulting in prevention of sidewall damage
